

Vision plan for Boeing employees

Use your Boeing-provided vision benefits at Warby Parker

Davis Vision is thrilled to announce a new relationship with Warby Parker, a prescription eyewear and sunglasses retailer. You now have the option to use your **out-of-network** benefits seamlessly at Warby Parker stores and online.

What you get

- High-quality, hand-finished Warby Parker frames
- Single-vision or progressive lenses
- Scratch-resistant and anti-reflective lens treatments (and UV protection, too)

How does it work?

- Visit a Warby Parker store or go to warbyparker.com.
- Provide your insurance information for Warby Parker to confirm your member benefits and eligibility.
- In store, give a Warby Parker retail advisor your name, date of birth, and member ID.
- Or go to warbyparker.com/insurance, select Davis Vision, and submit your information.
- Once Warby Parker confirms your eligibility, shop prescription eyewear and other eligible products.
- At checkout, review your invoice, which includes the total retail price, amount owed after out-of-network benefits are applied, and any applicable taxes and shipping fees.
- Pay the difference between your out-of-network frame and lens benefit and the frame and lens package price, plus any add-ons you select (e.g., blue-light-filtering lenses).
- Warby Parker will handle all claims processing directly with Davis Vision.

If you purchase...	Warby Parker charges	You pay out of pocket
Single vision lenses and frame (include scratch-resistant, anti-reflective lenses)	\$95	\$0

If you purchase...	Warby Parker charges	You pay out of pocket
Progressive vision lenses and frame (include scratch-resistant, anti-reflective lenses)	\$295	\$125

Transaction example for illustrative purposes. Members should check their plan coverage for specific eligibility and benefits.
